Milestones & Deliverables: Low-Fi Prototyping

Low-Fidelity Prototyping

28.11.16 First Draft Prototype & User Test Planning

05.12.16 Review Results User Testing & Concept Iteration

12.12.16 **Deliverable 3**: Low-Fidelity Prototype based on User Feedback

12/12 Low-Fi Prototype & User Testing

October
November
Dezember
January

Until 12.12.16

Deliverable 3: A PDF presentation (30 mins per group) containing each of these bullet aspects:

Present a summary of your user testing, including
- Impressions from your research (videos and photos)
- A brief overview on the testing set up, incl. The tasks you gave your users
- Summary of the main insights across all sessions
- A list of ideas and changes you applied to your prototype to accomodate the user feedback

Present a new iteration of your prototype:
- Show how you developed your concept further based on the user feedback
- Increase resolution of your prototype (all information for the use case is displayed)
- Increase fidelity of your prototype
- Incorporate several pictures of your prototype in your presentation as documentation
